

FILEMAKER INDIVIDUAL COACHING SESSIONS

Participants

Individual coaching sessions are for intermediate or advanced participants who wish to deepen their knowledge of FileMaker programming.

Description

During the coaching sessions, participants can bring their FileMaker file and find technical solutions to programming problems with the help of an expert developer. The assigned coach will be able to share tips and tricks that will allow the participant to accelerate his learning of the platform or to facilitate the resolution of specific technical problems.

Prerequisites

There is no prerequisite to participate in a coaching session. However, we recommend that participants master all of the concepts covered in our [intermediate level class](#).

Pricing

The regular hourly rate for coaching sessions is \$ 195 / hour.

Sessions must be purchased through a prepaid time bank.

The preparation time will be invoiced on top of the coaching hours.

Conditions

- The sessions are for a minimum duration of 3 hours and must be scheduled a minimum of 5 business days in advance.
- Individual coaching sessions are offered to a single participant only.
- The participant must use his/her computer to attend the session.
- The sessions should not be used for technical support. The role of the coach is not to fix the problems, but rather to explore possible solutions and to teach the techniques to the participant.
- Sessions can be held either at the Direct Impact office or in virtual sessions (WebEx Meetings) at no extra cost.
- If the sessions are held outside of Direct Impact's offices, the coach's travel time is billable on top of the coaching hours.
